

3.6 Wallpaper Management

Remote Manager Cloud allows to upload image to the wallpaper library and deploy to selected devices.

Here are the instructions to show you how to do:

Step1. On the Menu left side, Click Devices

Step2. Click the icon menu on the right top corner.

Step3. Click the option Wallpaper Library

Step4. Click + to add wallpaper file to the library

Step5. Image files will be listed in the library after they are uploaded.

Step6. Click the deploy icon, and Deploy window will pop up on

the top of the screen.

Wallpaper library					
Thumbnail	File name	Dimension	File size	Uploaded by	
	1_2.jpg	2160×3840	2.2 MB	ivan	Deploy

Step7. Check the selected devices and click deploy.
