

5.1.1 Sleep timer

This article is applicable for NovoConnect device.

Configuring a Sleep Timer

Step1. In the NT Settings menu, tap **Display**.

Display settings

Step2. In the **Display** menu, select **Sleep Timer**.

Modes of Sleep Timer

Step3. The **Sleep Timer** menu will show the following options:

- Do not enter sleep mode
- Enter sleep mode after idle timeout

This item includes the following options to select: **5 minutes** / **10 minutes** / **15 minutes** / **30 minutes** / **1 hour**

- I. After you've selected the option you want, tap **Apply**.
- II. Return to the display's home screen.
- III. Once the home screen has been idle for the designated amount of time, the display will enter sleep mode.

Timer selection

- Always on

Allows you to set the days and time period each week when the display will be constantly on.

- After you've selected the days and time period you want, tap **Apply**.
- Return to the display's home screen.
- Once the designated time is past, the display will enter sleep mode.
