

## 3.4.1 Using Native Mirroring

### MacOS or iOS – AirPlay

#### iOS 12+

**Step 1.** Connect your iPhone/iPad to the same Wi-Fi network as your Novo device.

**Step 2.** Swipe **DOWN** from the top-right corner of your screen to access Control Center > Tap **Screen Mirroring** and then select the Novo device.

#### iOS 11 and Older Version

**Step 1.** Connect your iPhone/iPad to the same Wi-Fi network as your Novo device.

**Step 2.** Swipe **UP** from the bottom of your screen to access Control Center > Tap **AirPlay** > select the Novo device.

For more details, please go to [LaunchNovo.com](https://LaunchNovo.com) > iOS.

### Android – Google Cast

The way to enable Google Cast varies among Android devices. Some of them have it in “Settings/Display” menu while others offer it via its swipe-down menu. Here is an example for Google Pixel phones.

**Step 1.** Connect your Android phone/tablet to the same Wi-Fi network as your Novo device.

**Step 2.** Swipe DOWN from the top of your screen. Tap **Screen Cast** and then select the Novo device.

**Important:** Make sure “Power Saving” mode has been disabled.
